## Student Admissions, Outcomes, and Other Data

The PhD program in Clinical Psychology at Northwestern University Feinberg School of Medicine is accredited by the American Psychological Association (APA). For further information about APA accreditation or specific information about the accreditation status of our doctoral program please contact:

Jacqueline Remondet Wall, PhD Director, Office of Program Consultation and Accreditation American Psychological Association 750 First Street, NE Washington, DC 20002-4242 202-336-5979, <http://www.apa.org/ed/accreditation>

The Committee on Accreditation at APA requires that accredited programs provide the following data to the public:

- Time to completion, from admission to graduation
- Program costs
- Internship success rates
- Attrition rates
- Licensure rates

The Clinical Psychological Doctoral Program provides this minimal information necessary to fulfill this requirement.

We also provide additional information consistent with our membership in the Council of University Directors of Clinical Psychology (<http://cudcp.org/>).

Please note that the information and data provided below are based on the past 10 years, unless otherwise noted.

Date Program Tables are updated: September 12, 2025

For students entering our program with a master's degree, although Northwestern University does not accept transfer credits from other universities at the graduate level, under certain circumstances, the PhD program will accept a previously completed graduate course from another institution as satisfying a curricular requirement of the PhD program. All PhD students, however, must complete at least nine (9) quality letter-graded graduate level courses within Northwestern as part of meeting the Program's requirements for the PhD.

Given the current educational and training requirements of the program, time to completion is expected to be a minimum of 5 years.

## Program Costs

Program Costs	Description	2025-2026 1st-year Cohort Cost
	Tuition for full-time students (in-state)	\$0.00
	Tuition for full-time students (out-of-state)	\$0.00
	Tuition per credit hour for part-time students (if applicable enter amount; if not applicable enter "NA")	NA
	University/institution fees or costs	\$500
	Additional estimated fees or costs to students (e.g. books, travel, etc.)	\$500

All students in the Clinical Psychology PhD Program in the Department of Psychiatry and Behavioral Sciences receive a Research Assistant Scholarship or equivalent award that provides 100% tuition remission (or the equivalent) and a 12-month stipend (current stipend rates can be found here: <https://www.tgs.northwestern.edu/funding/index.html>). The tuition remission and monthly stipend are provided for 20 quarters, including four (4) academic years and four (4) summers, as well as a funding for a fifth (5th) academic year and summer as part of the fulltime clinical internship. Stipend funding for the internship year includes the stipend provided by the internship, as well as stipend support from the University that is necessary to bring the internship stipend up to the minimum stipend levels set by the graduate school, if necessary.

Students receive a full health insurance subsidy, if enrolled in the Northwestern Student Health Insurance Plan (NUSHIP), for the first four (4) academic years and four (4) summers. Please note that NUSHIP is active for 12 months, from the September 1 through the last day of August. Health insurance during the clinical internship year is provided by the internship site; the PhD program does not provide a health insurance subsidy during the internship year because most internship sites provide health insurance; however, interns are able to purchase the NUSHIP plan out-of-pocket.
